

Intimate Events

an intimate wedding mindset

Although our current circumstances have forced us to have limited options, an intimate Indian wedding has immense benefits and will surprise you as you step into this new chapter as husband and wife. Somewhere along the way of social media, technology and week long wedding functions, we've lost the meaning of why we get married in the first place.

Weddings and events have transformed from the meaningful functions we intended them to be - and now we have been given a chance to go back to a simpler time when weddings were truly about celebrating the love between two people! There is a mindset shift that twenty-twenty has forced us to have, and its not all bad.

Taking the time to stop, to slow down and appreciate really puts those important things into perspective! Love is not cancelled and it deserves to be celebrated!
So definitely consider some of the amazing benefits of having an intimate wedding!

guest counts

Intimate guest counts equals quality time with those near and dear to your hearts! So often brides and grooms have so many guests to greet and mingle with, the encounters almost become impersonal and just a transaction vs. that meaningful connectional they were hoping for!

cost

Having an intimate Indian wedding may not necessarily be less costly - chat with your vendors about prioritizing the elements you need for your event. Explore ideas to enhance areas of your event and look into other areas of your events whereas some services may not be needed to the extent as they previously were.

design & decor

Now more than ever is time to focus on guest experience. You have the luxury to cultivate an event that truly represents you as a couple! A well designed guest experience will help create an amazing setting for your ceremony, dinning, photos and will contribute to the memories that will last a lifetime!

vendors

Although your event may be smaller, there is still room for all of your wonderful vendors. You have created a team of artists to create a magical and memorial day for you - that has not changed. The location may have changed, and the guest count may have changed - but your vision for your special day has not. Chat with all vendors to see how they can still contribute to creating an amazing wedding day for you!

photography & videography

Now more than ever is time to make moments and memories! Take advantage of the design and decor - utilize your space and time to take amazing photos and video clips that you can share with all of your loved ones who could not be physically present on your special day! Chat with your videography vendor to live stream your special day so your loved ones near and far can join in on the festivities and send you well wishes on your wedding day.

get creative

Now is the time, imagine your space in an entirely new way - get creative with you ideas. Have a theme, set the scene for an amazing day and have fun! You will be amazed at what can be done in any space. Talk to your vendors about creating an amazing event!
